North York, ON | 437-599-3597 | karthik705030@gmail.com | github.com/Krthk07 | krthk07.github.io

PROFESSIONAL SUMMARY

Results-driven Computer Systems Technology student expected to graduate from Sheridan College in September 2026, with practical experience in IT support, software development, networking, and cybersecurity. Proficient in troubleshooting hardware, software, mobile devices, and network connectivity issues while supporting end users in fast-paced environments.

TECHNICAL SKILLS

Languages	Python, Java, C, C#, Flutter/Dart, JavaScript, HTML/CSS, SQL
Databases	MySQL, Supabase, DynamoDB, relational schema design
Networking & Systems	TCP/IP, Windows/Linux, AWS/Azure, WiFi analysis, IoT, system security
Tools	Git, Postman, Visual Studio, Jira, Confluence, LaTeX
IT Service Management	Incident management, ticketing, ITIL, Agile/Scrum

PROFESSIONAL EXPERIENCE

Manager - Miniso, Toronto, ON | January 2024 - Present

- Provided Level 1 technical support by troubleshooting POS systems, payment terminals, barcode scanners, and store devices, escalating unresolved hardware and software issues.
- Assisted employees with system access, device usage, basic setup, and daily technical issues to minimize downtime.
- Maintained accurate operational records, inventory data, and daily reports using store systems.

AI Technical Writer - GAO Tek Inc., Toronto, ON | February 2025 - May 2025

- Researched AI technologies, software solutions, and industry standards to develop technical documentation and user guides.
- Collaborated with technical teams to translate complex concepts into clear documentation.
- Managed documentation updates, verified accuracy, and maintained version-controlled technical content.

IT Analyst - RedTeam Academy, India | April 2022 - March 2023

- Provided Level 1 IT support for Windows, Linux, networking, and endpoint issues.
- Assisted cybersecurity operations through vulnerability assessments, security monitoring, log analysis, and lab support.
- Configured user accounts, network devices, and system environments while documenting technical procedures.

EDUCATION

Computer Systems Technology - Software Development & Network Engineering

Sheridan College, Brampton, ON | May 2023 - September 2026

Cyber Security Analysis Diploma

RedTeam Academy, Kochi, India | August 2022 - January 2023
